Plus to above, I am working on estimations for new projects

Graduated Project (Wireless Communication System for a Blind Person)

The project is achieved by making a network between the traffic light and the smart stick via a wireless communication method controlled by using Arduino Uno microcontrollers which are attached to the traffic light and the stick to provide the logic commands.

Training Courses

Cisco Certified Network Associate, Routing and Switching.

Cisco Certified Network Professional, switching and troubleshooting.

Installing and Configuring the Cisco BE6000.

Cisco Certified Network Associate Wireless.

Configuring and troubleshooting Cisco ASA.

Cisco Certified Network Associate Collaboration.

MXK Training ZHONE (GPON System).

Certification

- **CCNA (200-120) - Routing and Switching (Certified)**
- **Selling Business Outcomes (810-403) (Certified)**
- **CCNP (300-115) - Switching (Certified)**

Languages

- **Arabic**
- **English**

Skills

- **Cisco Switching & Wireless.**
- **Good knowledge in IP Telephony (VOIP).**
- **Excellent knowledge of Office (Word & Excel & Visio).**
- **Preparation of all Drawings, Technical Specifications, and Bills of Quantities.**
- **Review Shop Drawings with completely technical comments.**
- **Good knowledge in IPTV and CCTV system.**
